ABOUT ME

Passionate and dedicated intern software engineer aspiring to become a software engineer with a solid foundation in programming and a keen interest in emerging technologies. I am committed to continuous learning and eager to gain hands-on experience in a dynamic team environment. I am enthusiastic about seizing opportunities to contribute, grow, and make a meaningful impact while building a strong foundation for my future career

EXPERIENCE

•Intern - People's Bank

People's Bank - Walgama

March 2022 - August 2022

•Intern - Software Engineering

Galaxors (Pvt) Ltd

Feb 2025 - Feb 2026

- Worked on both frontend development and backend development using React, Node.js, Express.js gaining a strong understanding of modern frontend and backend practices.
- Developed and executed unit tests to ensure code quality and application stability.
- Developed RESTful APIs and integrated third-party services into scalable applications

EDUCATION

•Sabaragamuwa University of Sri Lanka

Bachelor of Science (hons) - Computing and Information Systems

August 2022 - August 2026

•Rahula College, Matara

G.C.E. Advanced Level 2020

2007 - 2021

TECHNICAL SKILLS, SOFT SKILLS AND INTERESTS

Languages: C, Java, PHP, JavaScript, TypeScript, Python

Frameworks: React, Node, Tailwind CSS, Express, Bootstrap

Databases: MySQL, MongoDB

Other Technologies: Git, Docker, Figma, Postman, Trello

Soft Skills: Communication, Problem-solving, Time management, Collaboration, Adaptability, Continuous Learning

PROJECTS

•TuneCraft- Student Management System

Developed a web-based platform to manage students, teachers, batches, and enrollments for educational institutes. The system streamlines administrative tasks, improving efficiency and organization.

- *Tools & technologies used:* React, Node.js, Express.js, MongoDB, JWT
- 🔄 TuneCraft- Student Management System

•PitCrew - Group Project

Developed a mobile application as part of a university capstone project that serves as a centralized platform for vehicle owners. PitCrew connects users with mechanics, garage owners, and spare parts sellers, offering a marketplace for advertising products and services. The app also features a vehicle maintenance record function, allowing users to log and manage their vehicle's maintenance history.

- *Tools & technologies used:* React Native, Firebase, Node.js, Express.js, Stripe, APIs
- 🔄 PitCrew

• Food Delivery Website

Designed a web application for restaurants to showcase their menu, allowing users to view dishes, add favorites to a cart, place orders, and track them. The platform includes an admin panel for managing menu items and updating order statuses.

- *Tools & technologies used: React, Node.js, Express.js, Tailwind CSS, MongoDB*
-  *Food Delivery Website*

• Keells Self Checkout Mobile App

Developed a mobile application to streamline the shopping experience by allowing users to skip checkout lines. Shoppers can scan items, view the total price, and make payments via the app using their cards. This personal project, created to enhance my skills.

- *Tools & technologies used: Expo, Firebase, React, Node.js, Express.js, Stripe, Figma*
-  *Keells Self Checkout Mobile App*
-  *Keells Admin Website*
-  *Keells Admin Backend*

• JustPOS - Web-Based Point of Sale (POS) System

Developing a full-stack web-based POS system for managing sales, inventory, billing, and customer records. Implemented secure authentication, real-time stock updates, and reporting features with a responsive and user-friendly interface. Focused on performance, usability, and efficient business operations.

- *Tools & technologies used: Expo, Firebase, React, Node.js, Express.js, Stripe, Figma*

• DispatchDesk - Letter Management System

Developed a centralized system for recording, tracking, and assigning actions to letters, ensuring efficient management of office communications. The platform allows staff to log received letters, assign them to appropriate personnel, and track their status from start to completion.

- *Tools & technologies used: React, Node.js, Express.js, MongoDB, Figma*
-  *DispatchDesk Frontend*
-  *DispatchDesk Backend*

CERTIFICATES

- **Postman API Fundamentals Student Expert** - Postman
- **Java Intermediate** - SoloLearn
- **Introduction to Java** - SoloLearn

EXTRA CURRICULAR ACTIVITIES

- **Active Member** - IEEE student branch of SUSL *2022 - present*
- **Active Member** - Society of Computer Sciences of SUSL *2022 - present*
- **Technical Team and Music Crew Member** - AURELIA V1.0 Organizing Committee *2024*
- **Logistic Team Member** - IEEE Day 2024 - SUSL *2024*
- **Music Band Performer** *2023 - present*
Performed in various university events as a member of the music band, contributing to campus cultural activities.
